About IDS Display

Established in 1997, IDS is a leading flat panel display solution provider. Our strong technology network welcome all kinds of LCD related applications. Our product range is from STN monochrome, IPS TFT and AMOLED displays.

With our USA production line and engineering service center, we provide LCD performance and durability enhancements, and custom All-In-One touch screen computer assemblies. We service the aviation, marine, military, medical and industrial markets. IDS is your one-stop partner for displays and display peripherals.

Premium LCD

IDS is an authorized reseller and value-add service provider for Global Leading LCD manufactures with logistic and inventory services of standard displays from 1.75" QVGA portable displays to 32" 4K resolution workstation monitors.

1.75"	240 x 320 / 500 nits / Wide Temp / On-cell PCAP / Super thin

3.0"	480 x 640 / 500 nits / Wide Temp / On-cell PCAP / Super thin
3.8"	800 x 480 / 350 nits / Wide Temp
5.0"	800 x 480 / 300 - 800 nits / Wide Temp / PCAP
7.0"	800 x 480 / 500 nits / Wide Temp / PCAP
7.0"	1920 x 1080 / 1000 nits / Wide Temp / PCAP
8.4"	1024 x 768 / 600 nits / Wide Temp / PCAP
10.1"	1280 x 800 / 1000 nits / Wide Temp / PCAP
10.4"	1024 x 768 / 600 nits / Wide Temp / PCAP
12.3"	1920 x 720 / 1000 nits / Wide Temp / PCAP

INTERFACE BOARDS

We have an extensive lineup of controller and interface boards with D-Sub, HDMI, DVI and USB ports. Our clients can quickly implement a multi-touch display within a short design cycle saving engineering design time and manpower.

ALL-IN-ONE

All-in-One is a next level convenience package that integrates industrial grade computers to our LCD and touch screens. IDS offers metal enclosures enabling our clients to have quick designs and easy installations.

CUSTOM CABLE

IDS offers custom cable assemblies from several qualified partners worldwide. We coordinate their capabilities for simple to complex cabling solutions at the highest quality.
